

Demo javascript Project 6 - clock

tasks	details	estimated time (hour)	real time (hour)	date
see analog-digital clock & analysis it	analysis work way	3		1402/03/13
	thinking about its logic			
creating the basic structure of the clock -- HTML	thinking about its structure	3		1402/03/14
	use html			
	code sorting	4		1402/03/15
	layout			
Designing digital clock -- CSS	position of clock	4		1402/03/16
	adjust distanse			
	general design	4		1402/03/17
	adjust colors	4		1402/03/18
	making shape			
Designing analog clock -- CSS	position of clock	4		1402/03/20
	adjust distanse			
	making the clock hands	4		1402/03/21
	layout the clock numbers	4		1402/03/22
	design the clock numbers			
	adjust colors	4		1402/03/23
	making shape			
	general design	4		1402/03/24
perform digital clock -- javascript	using javascript code	4		1402/03/25
	using functions	3		1402/03/27
	perform logical codes	4		1402/03/28
	debug codes	4		1402/03/29
perform analog clock -- javascript	using javascript code	4		1402/03/30
	using functions	3		1402/03/31
	perform logical codes	4		1402/04/01
	debug codes	4		1402/04/03

total estimated time	72
total real time
